SWASHRAYA – AN INNOVATIVE STEP TOWARDS WOMEN EMPOWERMENT

One of the sensitized needs identified during the home visit and survey in the adopted community area, Pallithottam was lack of basic hygiene and the importance of being empowered in maintaining the health of individuals and families. It was also noticed that, at least one member of all families had some kind of health issues. As health care providers, we felt a strong need to make the women empowered in preventive, preservative and protective aspects of health, so as to promote the health of the family, and community in various dimensions, thereby contributing to national development. "Swashraya" was launched on 05.11.18 in collaboration with **Community Radio Benziger, 107.8**, a hospital based radio and our college. The program was named as "Swashraya" which means "Self Sufficient". The vision is to empower the women to practice the primordial and primary level of prevention, like health assessment, healthy practices including good nutrition, habits, exercise, rest and basic care in minor ailments. The program had 5 units in total which is being broadcasted through **Community Radio Benziger 107.8** in 72 episodes
