Dear Fr. Joseph John,

Our privilege to introduce "The British Institutes", established in 1935, one of India's leading educators with focus on diverse segments of education across learners of multiple age groups. We shaped careers for thousands of students and professionals with a passion for excellence in education since its 84 years of existence. Over the years, the art of communication has evolved into a distinctive branch of knowledge, as Information Technology; Consequently, the success of a person in the modern world primarily depend on how effectively one can communicate in English.

English is still a major stumbling block for most of the people, when they interact with people or appear for interviews, career abroad, campus recruitments, school and college entrance tests and the Civil Service examinations etc. Here is a unique opportunity for those who are in need of a winning edge and master English in a couple of months, and begin in one's career irrespective of any discipline.

Our Instructors are British educated experts and British Council Trained Trainers with international exposure, comes from diverse back grounds carrying high octane energy that can be felt by students through their Vibrant Activity Based Learning classes (ABL).

"The British Institutes" managed by Aman Group, the only designated representative of South Kerala and our programmes are designed/developed by The British Institutes, tested by The British Council Aptis Centre, Content partner Oxford University Press and CEFR assessment.

We are the accredited nodal IELTS training partners for 'IDP Australia' & 'British Council'.

The purpose of this training program is to prepare the students for IELTS / OET examination within a time frame not exceeding 60 hours. The test preparation program will include, apart from IELTS / OET training, Personality development and communicative skills enrichment sessions. All the Study materials and handouts will be provided by The British Institutes, Trivandrum, the methods and tools used are of international standard and quality, taught by language trainers having international qualifications and experience.

Preliminary classes are meant for Personality Development and communicative skills. Contact classes will be held at the College premise during the time suggested and discussed by the management.

IELTS / OET training will be the major focus of the programme with occasional assessments during the course.

We recommend our courses to enhance the overall impact of the student in the classroom, the "mind set" of the student, the student's personality, work ethic and social conduct, the student's abilities in context, over time — how do they fit within the school's overall demographics, curriculum, test scores, special circumstances beyond the classroom that impact the student and the achievement is most remarkable once they successfully complete the course.

We request your good office to cherish your blessing by giving us an opportunity to serve your institutions.

We look forward to hearing from your end. Thanking you in advance,

Yours respectfully,

For /-

Passport Seva – Student Connect Program

Dear Sir,

As you may be aware, Passport Seva Project (PSP) – the largest e-Governance initiative by Ministry of External Affairs (MEA) in public private partnership with Tata Consultancy Services (TCS) has transformed passport service delivery in India.

2. Today, when the world is emerging as global village, students aspire to travel to different parts of the globe under student exchange programmes, competitions, higher studies and side varieties of learning and career opportunities. While Passport is an essential travel document, it is also recognized as one of the most potent and widely accepted identity and address proof document.

3. In view of the above, the Ministry of External Affairs has decided to bring the benefits of the transformational programme to the students of Indian universities and colleges representing youth of India having high aspirations. As part of the initiative, we are aiming to encourage students to apply for their passports, which is a simple and convenient process.

4. If there are sufficient numbers of students from your Institute interested in applying for a passport, we would be willing to conduct special passport mela at the nearest PSKs. If required, we will also facilitate students by allotting special time slots for walk-in processing of application without appointment at the PSKs. As a special case, this facility will also be available to the faculty and staff members of the Institute.
